**LET'S START
WITH US**

Our Company

As a new star in Bio-chemical ingredients segment of Yougu Biotech, a natural raw material manufacturer, BKP is entering a new era of unprecedented exploration and discovery of high-quality food ingredients, pharmaceutical active ingredients and fine chemical ingredients to promote the health of all mankind.

Company Orientation

"Be your trusted partner in the life science industry-with quality, reliability, competitive prices and excellent customer service as the source"

We are not only an important sales partner of our suppliers, we also meet the needs of this fast-paced industry with professional knowledge management and flexible services, and have established a deep trust relationship with large and small customers.

VISION

- Keep up with the forefront of the market
- Continuously optimize the cost of the supply chain
- Share value information in a timely manner

VALUE

- Supply customers with quality products and value-added services

PROCEDURE

- Global supply chain
- GMP/ISO qualified production process
- Standard QC process with own laboratory and 3rd party
- Efficient warehouse & Logistics management
- Product quality traceability

STRATEGY

- Select quality raw material from reliable manufacturer
- Optimum procurement plan and technical support

Products Classified

Food Ingredient

API & Intermediate

Bio-enzyme & Probiotics

Fine Chemical

Natural Active

Food Ingredient

“ With our food ingredient portfolio, it has a wide function variety including ingredients like vitamins, amino acids proteins powder used for food supplements, also food additives like natural preservatives, sweeteners, etc.

Working with global suppliers, customer will find various choice that suitable for products. We always find best solution for customer`s unique needs with our professional team.

”

Product Group

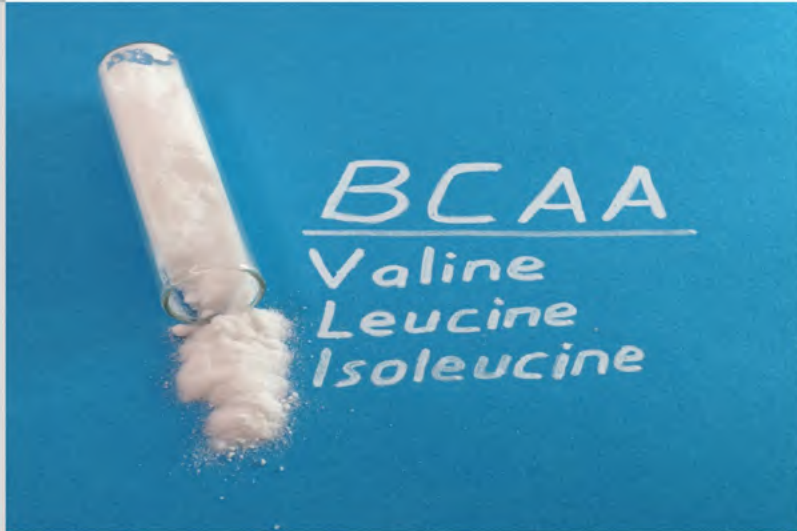

Vitamins

- Vitamin B1
- Vitamin B3
- Vitamin B5
- Vitamin B6
- D-Biotin
- Vitamin C
- Vitamin E

Amino Acids& Derivatives

- L-Arginine
- L-Leucine
- L-Threonine
- N-Acetyl-L-tyrosine
- N-Acetyl-L-Cysteine
- BCAA
- GABA
- L-Ornithine
- Alpha-Ketoglutarate
- Magnesium bisglycinate
- L-Carnosine

Product Group

Protein Powder

- Protein whey protein concentrate
- Isolated soybean protein

Natural Preservatives

- Nisin
- Natamycin
- Chitosan

Product Group

Sweetener

Steviol glycoside (Stevia)
Erythritol
Sucralose
Xylitol

Antioxidant

Propyl gallate
Astaxanthin
BHA
Coenzyme Q10

Product Group

Miscellaneous

Pyridoxal 5'-phosphate
Phosphatidylcholine
D-ribose
Phosphatidylserine
Chondroitin sulfate sodium
Taurine
Sodium hyaluronate
Melatonin
DHA Oil
ARA Oil
Nicotinamide riboside chloride
Acetyl-L-Carnitine

Thickener& Stabilizer

β -Cyclodextrin
Carboxymethyl starch sodium (CMS)
Xanthan gum

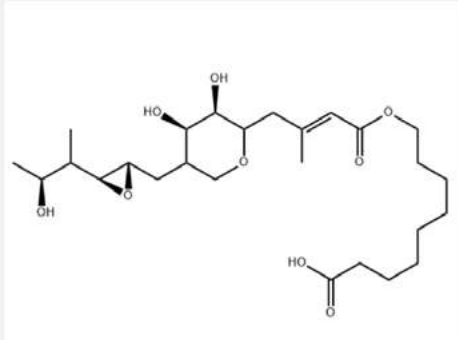

The image is a wide banner for a pharmaceutical company. It is split into two main visual sections. The left section shows a close-up of industrial stainless steel equipment, including pipes, valves with blue handles, and a large cylindrical vessel. The right section shows a person in a cleanroom environment, wearing a light blue lab coat, a hairnet, and a face mask. They are working with a piece of equipment, possibly a filter or a small reactor, which is connected to the larger system. The overall scene is clean, professional, and technical.

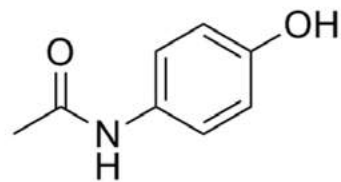

Active Pharmaceutical Ingredient (API) & Intermediate

“Quality and reliability standards are fundamental requirements for pharmaceutical active ingredients. BKP as a supplier of active pharmaceutical ingredients and intermediates, we pride ourselves on offering a range and wide range of quality pharmaceutical raw materials at competitive prices. At the same time, we provide a full range of services from sales and customer service to warehousing and international logistics services to ensure that you get the products you need within a reliable time frame.”

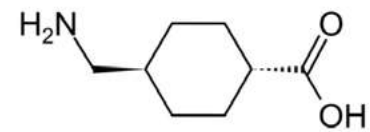

API Presentation

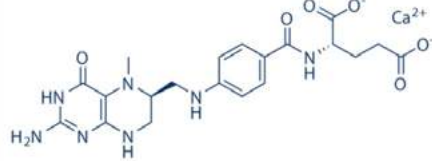

Mupirocin

Paracetamol

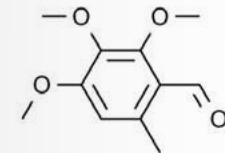

Tranexamic acid

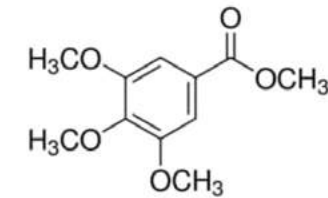

L-5-Methyltetrahydrofolate calcium

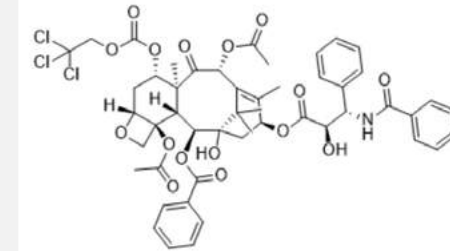

Intermediate Presentation

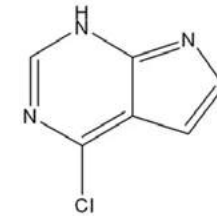

2,3,4-Trimethoxybenzaldehyde

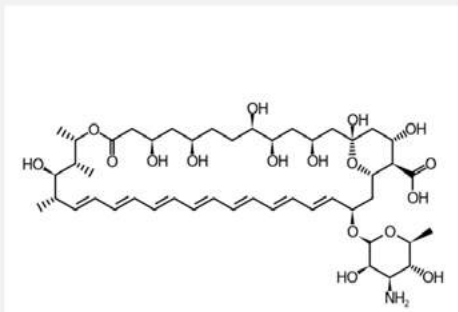

Methyl 3,4,5-trimethoxybenzoate

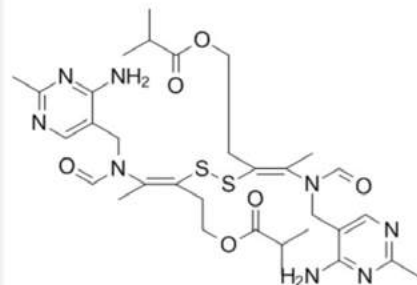

7-Troc-Paclitaxel

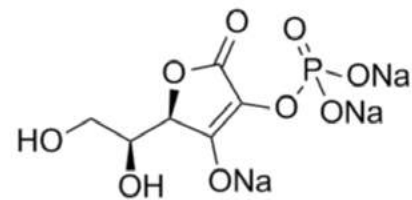

4-Chloropyrrolo[2,3-d]pyrimidine

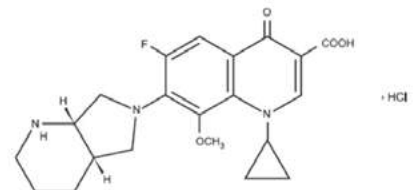

Amphotericin B

Sulbutiamine

Sodium ascorbyl phosphate

Moxifloxacin HCL

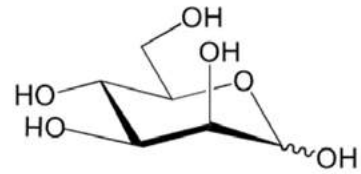

Fine Chemical & Natural Active

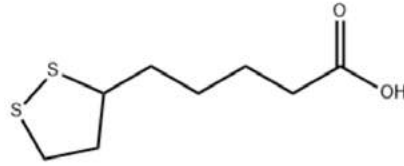

Here, botanical extracts from nature collide with synthetic products crystallized by human wisdom. They have a common goal of "protecting the health of animals and humans living on this planet".

Based on food & drugs safety program, we source these raw materials from famous origin with carefully selected, work through hygienic process and controlled by our experts on every step.

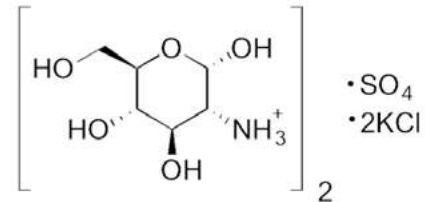

Fine Chemical Presentation

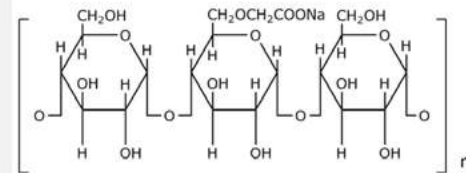

D-Mannose

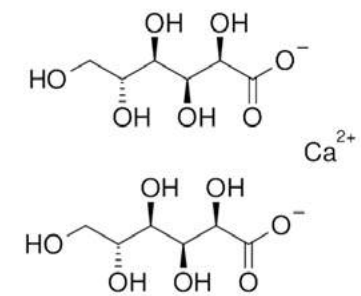

Alpha Lipoic Acid

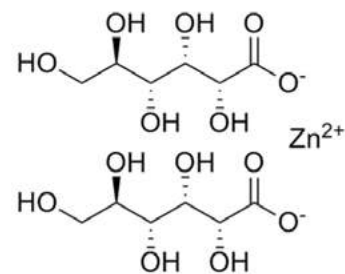

Glucosamine Sulfate Potassium Chloride

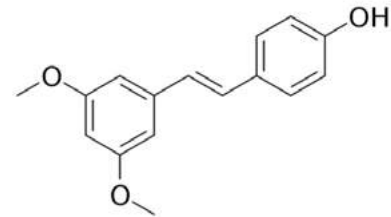

Sodium Starch Glycolate

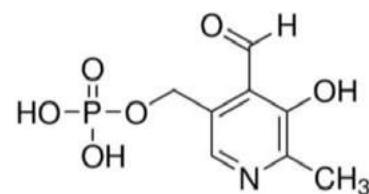

Calcium Gluconate

Zinc Gluconate

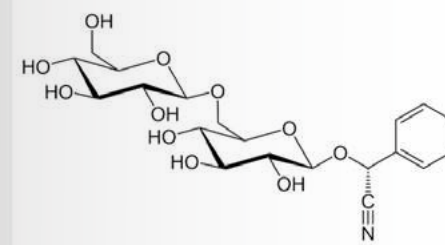

Pterostilbene

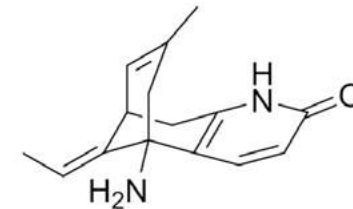

Pyridoxal 5'-phosphate

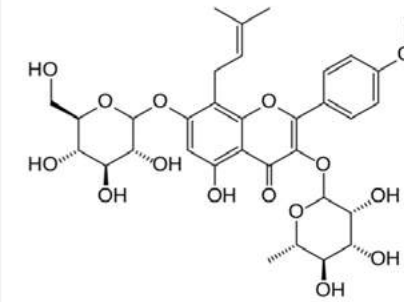

Natural Active Presentation

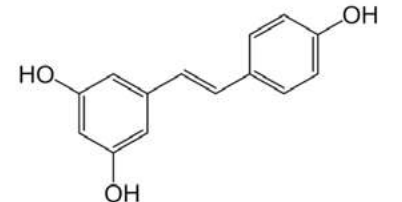

Amygdalin

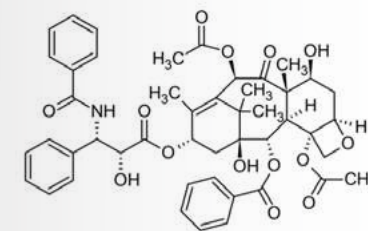

Huperzine A

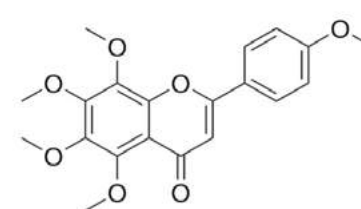

Icariin

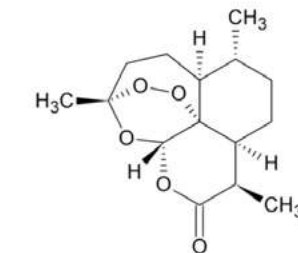

Resveratrol

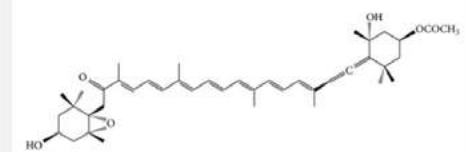

Paclitaxel

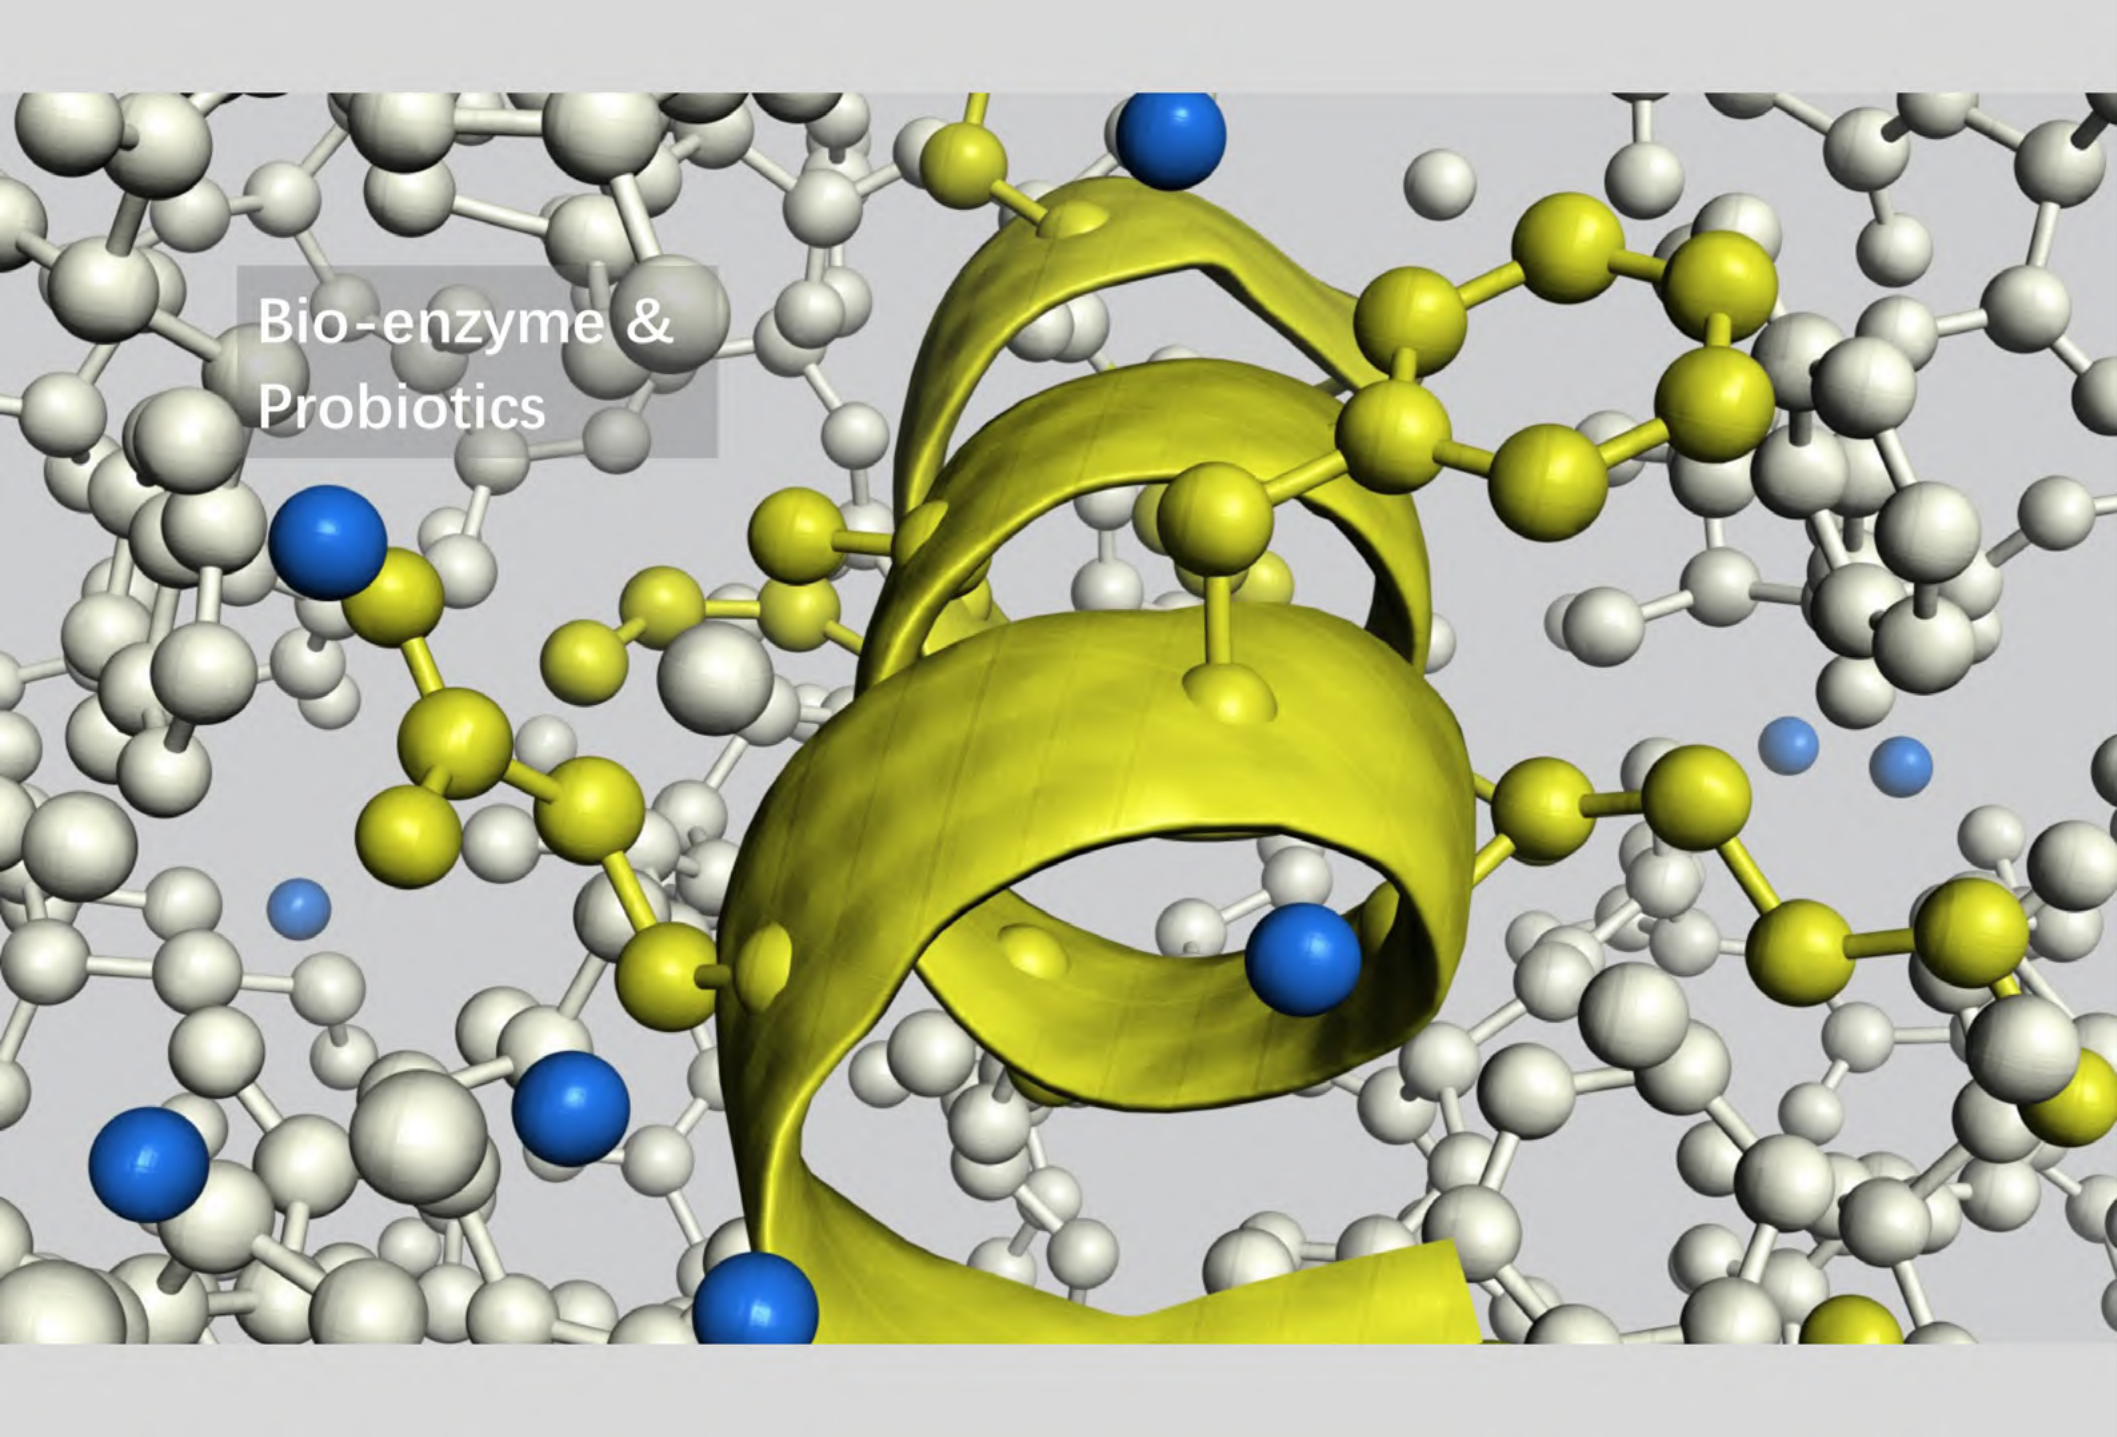

Tangeretin

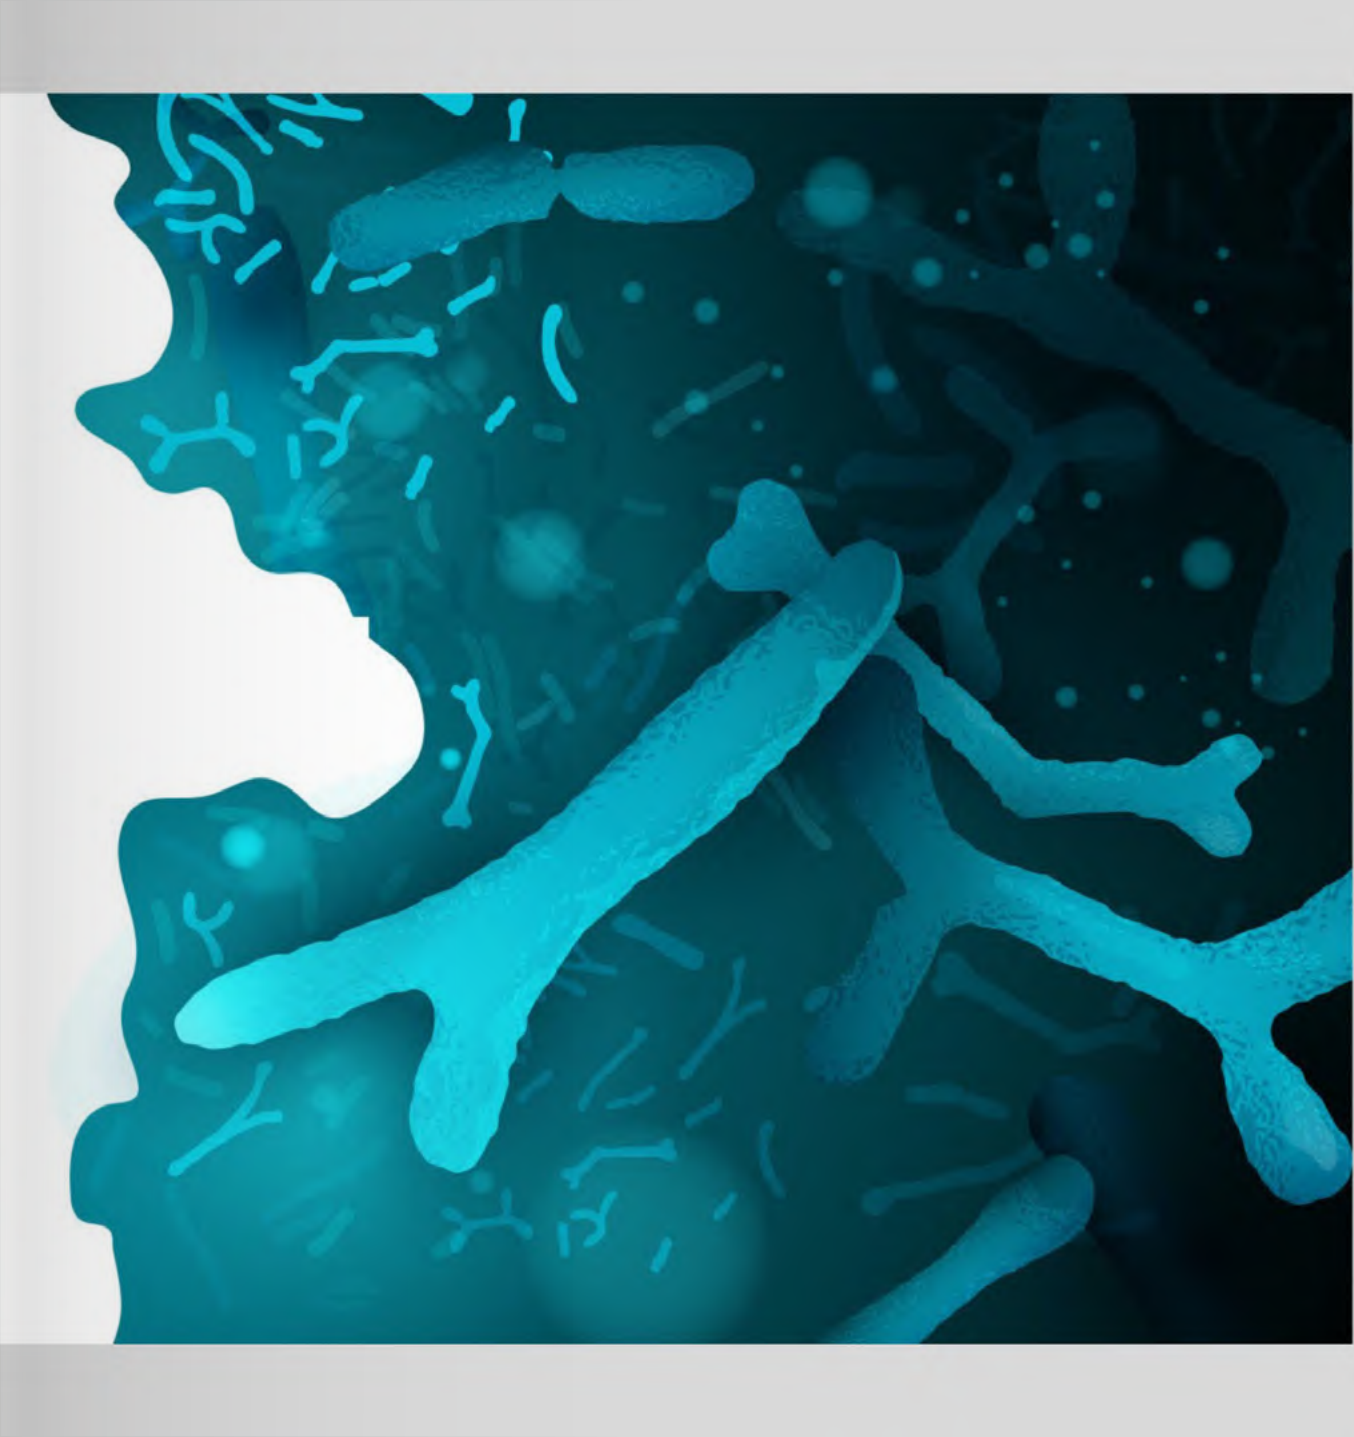

Artemisinin

Fucoxanthin

Bio-enzyme & Probiotics

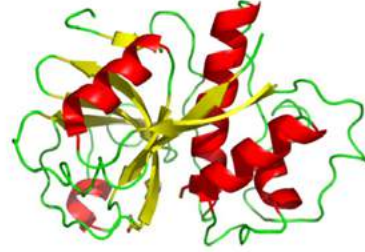

Biological macromolecular enzymes from the microcosm and probiotics also from the microcosm work together to maintain the balance of the microcosm in human and animal tissues.

We believe quality is in the tiny details. Working with manufacturer empowered with state-of-the-art machinery and qualified production specialists, we can get the job done quickly and efficiently, with which to ensure that the quality of the products we supply is worthy of the trust of customers.

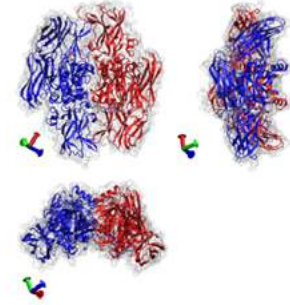

Bio-enzyme Presentation

Bromelain

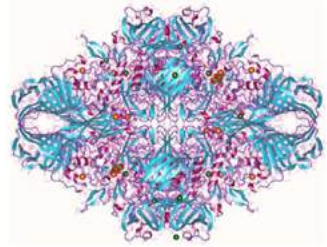

Papain

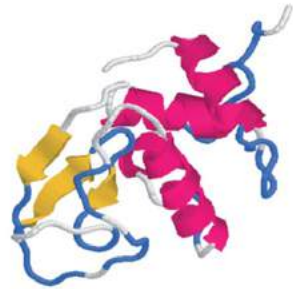

Transglutaminase

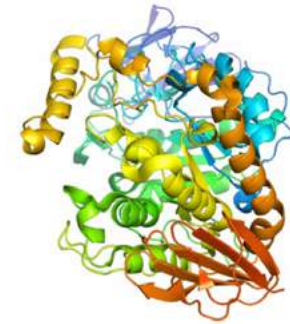

Chymosin

Lactase

Lysozyme hydrochloride

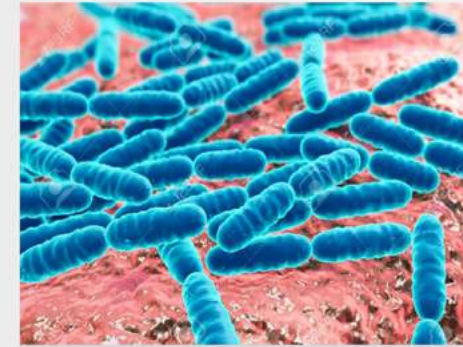

Amylase

Angiotensin converting enzyme

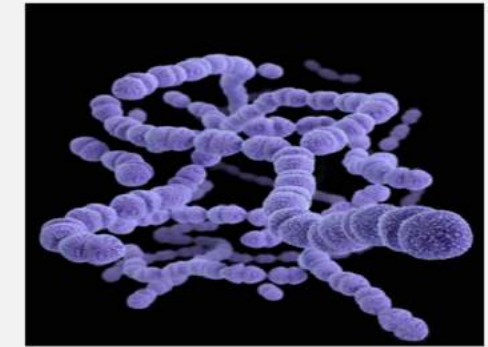

Probiotics Presentation

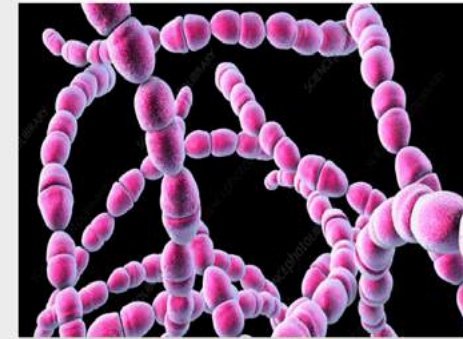

Lactobacillus species

Lactobacillus species

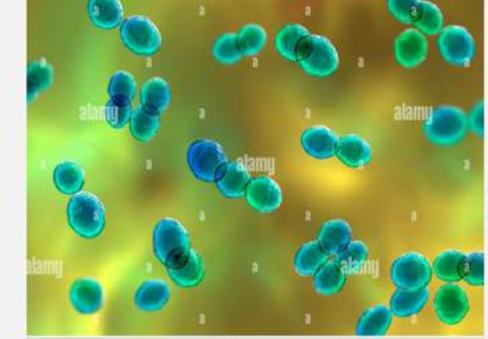

Streptococcus species

Streptococcus thermophilus species

Pediococcus species

Lactococcus species
